Gur (jaggery) and Groundnuts

Shabnam loved to eat jaggery (gur) and groundnuts. One day she bought 1 kg of jaggery and 1 kg of groundnuts. (You know that kilogram is also written as kg.)

* Are the groundnuts really more than the jaggery (gur) in weight or do they just look more?

Now guess, for which of these you need a bigger bag:

- (1) 1 kg popcorn or 1 kg sugar?
- (2) 1 kg peas or 1 kg potatoes?

Go to the market and check if your guess is right.

Pumpkin Tomato 'Panga'

This is the playground where tomatoes come to play every day.

They love playing on the see-saw. One day a big pumpkin comes and sits on one side of the see-saw. When he does not get up for a long time, the tomatoes decide to sit on the other side and lift the pumpkin up so that he falls off.

The little tomatoes start climbing on to the other side...1, 2, 3, 4, 5 25. Huh! The pumpkin is still sitting and laughing. So, the big tomatoes decide to help. The little ones get down

and make way for the fat ones. 1, 2, 3, 4 20.

Yeah! The pumpkin is up in the air. It shouts — Bring me down, bring me down please!

'Panga' is a colloquial word which gives the sense of a problem or a quarrel. It has been used deliberately because children can find it amusing.

weigh.

Double her Weight

Kunjamma's parents have a different way of celebrating Independence Day because Kunjamma was born that day. They buy sweets double of Kunjamma's weight and distribute them among poor people.

When Kunjamma was born, she was 3 kg. Today is Independence Day and Kunjamma is 5 years old. She is 28 kg now.

* Now guess her weight and the amount of sweets her parents distribute every Independence Day.

Kunjamma's age	Kunjamma's weight	Amount of sweets
At birth	3 kg	3 + 3 = 6 kg
1 year old	9 kg	
2 years old		13 +13 = 26 kg
3 years old	17 kg	
4 years old	<u> </u>	
5 years old	28 kg	
You can ask your p	parents Guess yo	ur own weight
how much a 2-year	old or 🔪 📖	
4-vear old child	could

***** Yum-yum Rice Shugoto heard about a new dish on the radio. He wants to try making it. When he notes down how to make it, he gets confused. This is what he notes down — (1) Pour **2** spoons of water in the pot (2) Boil the water and add - 1 pinch of daal - half kg red chilli powder - 1 bowl salt (3) Now put **a spoon** of rice (4) Add 2 peas and 8 glasses of mustard seeds (5) Finally add 1 kg of onions Mix everything and boil for 15 minutes. But Shugoto feels there is something VERY wrong in the amounts of everything!!! * Help him match the things with their right amounts.

1 kg	rice		
half kg	daal		
	peas		
	water		
	onions		
	salt O		
	mustard seeds	00(
	red chilli powder	• •	

Activity Time

A. Make a list of things bought at your home. Find out how much of each thing is bought at one time. These things can be rice, oil, chilli powder, sugar, milk, onions, ginger, etc.

	Name of thing	How much bought	
		8-1,113	
		er	
	××O		
	0		
	•	12 1	
~~~			<u>}</u>

D. Use your balance to find which of the following is heavier —

- A water bottle or a cricket ball i)
- ii) Your shoe or your pencil box
- iii) Your Maths book or Hindi book
- iv) Your bag or your friend's bag

E. Weigh 1 kg of mud or sand. Divide it equally into 2 bags. Use the balance to check if both the bags have equal weight.

Each bag of mud is your half-kg weight. Use it to weigh some other things around you.

* Make a list of

- Things weighing less than half kg. i)
- ii) Things weighing more than half kg.

Different activities will help children to guess and estimate weights of familiar things they see at home, at the grocery shop, etc. Guessing the weights of animals is an enjoyable exercise and helps them get a feel of larger weights. Teachers must bring a balance to class and give them a chance to weigh things themselves.

#### Look for Weights and Balances

Make a trip to your nearest junk dealer, vegetable shop and grocery shop. Have a look at the weights they use. Find out:

- i) Who uses the biggest weight?
- ii) Who uses the smallest weight?

Have you seen any of these balances?

In which shop would you find the following types of weights? Discuss with your friends.
